

SCIENCE TIME

To help your children improve their science skills during this time of home working, we've collated a few resources and links that we hope you will find useful and fun:

School Science

The Association for Science Education (ASE) brings you a free website to enrich teaching and learning in science.

Mystery Science

Open-and-go lessons that inspire kids to love science!

Create Awards

Many families are having to juggle new ways of working while helping children learn throughout the day. CREST activities are a fantastic opportunity for your children to be engaged in fun science-based activities at home with very few resources. Follow @CRESTAwards on Twitter for daily challenges – pupils can bag a CREST Award for taking part!
