

Generation Green Schools

CIRCULAR ECONOMY

1. List as many types of waste as you can think of!

Waste

2. Waste hierarchy

Draw a line between the level of the waste hierarchy and the correct definition.

Level of waste hierarchy

Prevention

Recovery

Re-use

Disposal

Recycling

Definition

Extend the life of products

Stop waste from ever being created

Dispose by landfill or incineration

Process waste materials into new products

Extract energy or value from waste

3. Clothing

How can we reduce waste within clothing?

4. Food

How can we reduce waste in the food sector?

Hint: use this waste hierarchy to think of answers for questions 3 & 4
